1. Thanks to the new program the database is more accurate than it's been in YEARS, and we are continuing to make improvements & corrections as they come in. When we apply for the KBIF program in October 2017, our numbers will be updated, which will hopefully give us an increase in potential funding payout monies, thereby increasing interest and more horses. We actually have about 4000 registered horses.
2. The required semi-annual report to the Kentucky Breeders Incentive /fund monies for 2017 will be submitted on June 30, 2017.
3. MPHA registration "push" to get horses registered. Ideas??
 - Go to farms help with registration (pull tail hairs, help with paperwork)
 - Open for suggestions
4. We have had 3 competitive obstacle events (MPHA) so far in 2017, and we currently have 4 more scheduled. We are averaging 20-25 people per event. We are having a great time and hoping to get more people to join.
